COMMUNICATION

Gentlemen:

Our records are unclear as to whether formal drawings were submitted upon filing of the above-referenced application.

The above-identified application is a continuation of 08/864,423 and further claims the benefit of U.S. Application Serial No. 09/126,580. The Applicants are submitting herewith drawings (FIGS. 1a-42). The submitted drawings are the same drawings as originally filed in Application Serial No. 08/864,423. Thus, the drawings are supported, *inter alia*, by U.S. Patent Application Serial No. 08/864,423, filed May 28, 1997, entitled "Method and Apparatus for Document Processing" which was incorporated by reference in its entirety at page 2, lines 4-6 of the present application and as indicated on the transmittal sheet which accompanied the filing of the present application. Therefore, the submission of these drawings does not constitute new matter. If you have any questions, please contact us.

Respectfully submitted,

John C. Gatz
